INFORMATION ABOUT E-PHOTO

only professional photographers and approved photo booths such as photomatons can provide photographs and a digital signature that are compatible with the visa request teleservice. They can be identified by a blue sticker that indicates "Agréé services en ligne ANTS" ("online approval services from the French National Agency for secure documents"). Once you have taken your photo, you will be asked to sign using a stylus on a tablet or touch screen. It is important to use your real signature and not just a period or symbol in order for your residence permit to be produced. Your photos will be printed in the same way as they are for a normal photo. You will also receive an individualised 22-number code. When you are filling out your online residence permit request form on the ANEF website, you need just indicate this number in order to link it to the photo and the digital signature.

PURCHASE OF TAX STAMP

online at <https://timbres.impots.gouv.fr/> (save and print it). There is no need to buy a tax stamp (timbre fiscal) when you submit your residence permit request (the stamp may expire before use). It will only be requested when you receive your residence permit. Thus, you can purchase it just before retrieving your residence permit at the police headquarters (prefecture).
