## AFTER SUBMITTING THE APPLICATION

Once the person submits their online application, a “**confirmation de dépôt**” is issued on the ANEF account. It is a confirmation that your request has been filed.

The person may then receive an “**attestation de prolongation d’instruction**” during the process of the residence permit request.

Additional information or document might be requested by the prefecture. The person must reply within the specific deadline, or the application will automatically be closed.

Once the application is approved by the prefecture, an “**attestation de decision favorable**” is issued. This document indicates the validity period of the residence permit to be issued.

All these documents can be downloaded on the person’s ANEF account.

The person receives a text message on their phone once the residence card is ready to be collected at the prefecture. The residence card must be collected before it expires, or the person will not be able to renew their residence permit. In most prefectures, it’s necessary to make an appointment on the prefecture’s website in order to collect a residence permit. At this appointment, the original of the passport and a €225 printed tax stamp will be requested. Tax stamps can be bought [on the tax department’s website](#).

*Quick tip:* if the person has not received a text message within 2 months after the “attestation de decision favorable” was issued, he/she can write to the prefecture to ask if the residence permit is ready to be collected and/or make an appointment to collect it.

### *Important note*

**For holders of a student residence permit (except Algerian nationals):** pending the notification of the decision on the application filed, they are allowed to work within the limit of 964 hours during the year of validity of their student residence card.

Once they obtain the “attestation de decision favorable”, they are not limited anymore.

**Holders of a “Job Search / Business Creation” (“Recherche d’Emploi / Création d’entreprise” - RECE) residence card or APS** are allowed to work full-time as long as they work in their field of studies or research and earn a gross salary of at least 1,5 times [the SMIC](#) (€2 702.70 per month in July 2025).
